## Swim Wild

Swimming outdoors heightens the risk of serious injury or harm. The risks of outdoor swimming include (but are not limited to) hypothermia, drowning, sickness from polluted water, injury from wildlife, other swimmers or debris in the water. The 'safety' of locations varies with the weather, the abilities and knowledge of the swimmer and over time rainfall can dramatically change the safety profile of a swim

This form is a Swim Wild disclaimer. By signing this form you take full responsibility for any liability or loss you may receive or cause, whilst attending a Swim Wild activity at any designated Venue. You confirm you can swim 100 meters unaided:
